Class XII CBSE— 86.5 %

RSS International School

2020

Noida, UP

PROJECTS

Crypto-live-tracker — *ReactJS, Three.js, Chart.js, CSS, API*

[Live Github](#)

- A web application providing real-time cryptocurrency prices in USD and INR using the CoinGecko API.
- Implemented dynamic visualizations with Chart.js for detailed insights into individual coins.
- Enhanced user experience with a 3D model crafted using React Three.js, adding depth and interactivity.

E-commerce — *ReactJS, CSS*

[Live Github](#)

- A web-based platform showcasing a diverse selection of products, built using React.js and Simple CSS.
- Implemented seamless cart management functionalities and ensured a responsive, elegant design for a consistent user experience across devices.

CODING PROFILE

- Solved 450+ questions on Data Structures and Algorithms on platforms like **LeetCode**, **GeeksforGeeks**, and **CodeStudio**. [LeetCode](#) [GeeksforGeeks](#) [CodeStudio](#) .
- Max Contest **rating 1530** at **Leetcode**.

SKILLS

Languages: C, C++(DSA), and Python.

Data Structures and Algorithms

Web Development: HTML, CSS, Javascript, React JS, NodeJS, Tailwind CSS, ExpressJS,

Tools: Visual Studio code, Postaman, MongoDB, Firebase, Git/GitHub

UI/UX: FIGMA, AdobeXD

EXTRA-CURRICULAR ACTIVITIES

- **UI/UX:** Proficient in crafting a sophisticated user interface for both **applications** and **website** platforms. Possess expertise in leveraging industry-leading tools like **Adobe XD** and **Figma** to bring design projects to fruition.
- Projects are available at [Projects](#) and [Behance](#) .

PARTICIPATIONS

- Participated in Technothon at **GCET**, focusing on "**Banking and Fintech**," contributing to a web-based **cryptocurrency investment** solution. [Visit Project](#) .
- Contributed as a **front-end web designer** at an **Ideathon** hosted by **iNeuron.ai** and **Gautam Buddha University**.
